

GRIPMASTER GN131

Product Data Sheet

Product Briefs

GN131 is one typical type of foam nitrile palm dipped work gloves. Different with the smooth finish types, the foam finish will increase the grip features and feels more softer. Knitted 13g polyester glove shell offers perfect fit to hands and together with the soft foam nitrile the gloves enable you to handle small parts flexibly. The breathable palm especially the most breathable back provides comfortable and dry feelings. This type of gloves is very good choices for most of the light duty works, such as warehousing, garage tidying ups, general maintenance, gardening.
