

GRIPMASTER GN242+

Product Data Sheet

Product Briefs

GN242+ is a very popular type of sandy nitrile palm dipped work gloves. The nitrile palm dipped with sandy finish enable the gloves can provide good performance in grips and anti-slips in dry, wet or oily conditions. 15G knitted nylon+spandex liner can make sure the gloves will be perfectly fit to you hands and be flexible at the same time. Also the 13Gauge nylon liner versions available with the same type. This will be you first choice if you consider the grip performance and the flexibility at the same time. Suitable for most of the light duty works.
