

# CUTMASTER

# GL601D

## Product Data Sheet

## Product Briefs

GL601D is one type of anti-cut gloves with excellent fit and durability. Latex plam crinkle finish in order to strengthen the glove's cutting ability to protect your hands better and grip better. This may affect the degree of bending fingers when you make a fist. But you can also grip the object you want due to the ergonomic comfortable design. They are the perfect choices for works such as construction, glass industry, metal processing, mechanical assembly or car repairs.
